

HOOB MARS

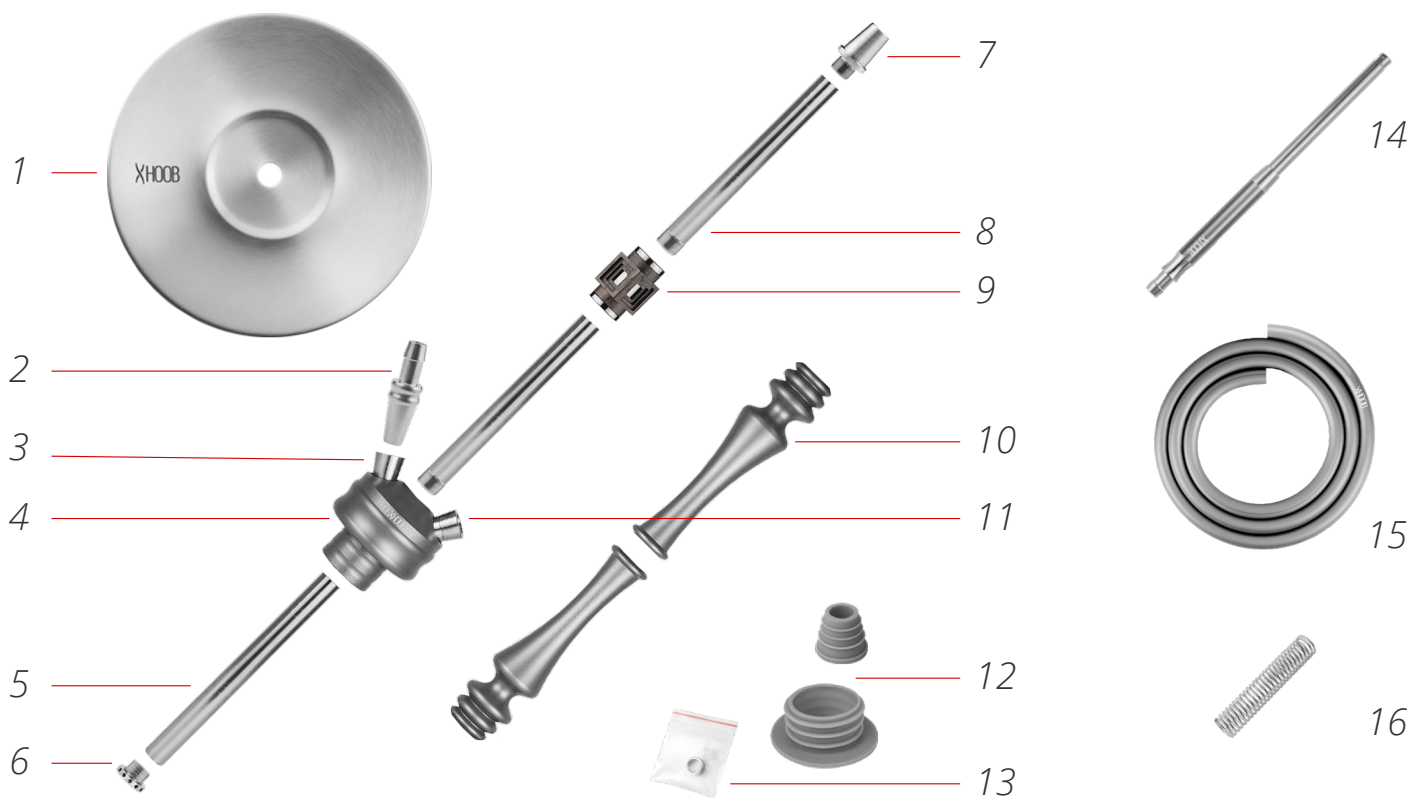

HOOKAH USER'S GUIDE

BEFORE FIRST USE

Please read this user manual carefully.

- Remove the hookah parts and accessories from the packaging.
- Rinse the hookah parts and accessories with water.
- Dry the parts and assemble the hookah according to the instructions.

HOOKAH EQUIPMENT

1. Fixed charcoal tray

2. Magnetic hose connector

3. Connector port

4. Magnetic base

5. Downstem tube

6. Diffuser

7. Bowl adapter

8. Stem tube

9. Wenge stem kit

10. Decorative aluminum part

11. Purge valve cap

12. Bowl and base grommet

13. Set of spare parts

14. Hose handle

15. Silicone hookah hose

16. Hose spring

HOOKAH ASSEMBLY

Threaded connections should be twisted easily, without unnecessary effort clockwise. We recommend moistening the vase seal and hose with water in order to make assembly easier.

Step 1

Screw the stem tube to the magnetic base of the hookah.

Step 2

Put a decorative aluminum part on the stem tube.

Step 3

Screw the wenge stem kit to the stem tube.

Step 4

Screw the stem tube to the wenge stem kit.

Step 5

Put a decorative aluminum part on the stem tube.

Step 6

Attach the charcoal tray and fix it with the bowl adapter.

Step 7

Screw the downstem tube to the magnetic base of the hookah.

Step 8

Screw the diffuser to the downstem tube.

Step 9

Insert the hose connector into the hookah base.

Step 10

Put the spring on the hose.
Pull the hose and spring up to the locking rim of the connector.

Step 11

Fix the spring at the base of the hookah.

Step 12

Put the silicone hose on the tip, which is located at the bottom part of the hose handle.

Step 13

Attach the base into the hookah vase.

Moisten the grommet of the neck with water in order to make assembly of the base easier. The hookah is ready for use.

SERVICE

Check the condition of the magnetic ring in the connector port.

If there are marks of damage to the coating or rust, the magnet should be replaced.

Step 1

Attach the connector without a hose into the connector port.

With pressure on the connector port.

Unscrew the port counterclockwise.

Step 2

Remove the magnetic ring together with connector port.

Check the condition of the magnet.

A set of spare parts

- Magnetic ring
- Plastic ball into the purge valve

If you find it difficult to replace the magnets yourself or carry out hookah maintenance, there is an opportunity to use a paid service at the Hoob service center.

ACCESSORIES

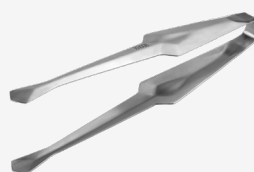

The necessary equipment for using a hookah.

Vase
